GREETINGS OF ORGANIZER

Sergiy Feofilov

Director General
UkrAgroConsult

Dear Friends,

On behalf of the organizing team I'm pleased to welcome you to the 24th International Conference BLACK SEA GRAIN.KYIV!

UkrAgroConsult remains faithful to its mission of counseling business that feeds the world, providing comprehensive agricultural market analysis of the Black Sea & Danube region, as well as industry events for the global leaders of the grain and oilseeds market.

Our previous event, BLACK SEA OIL TRADE-2025, held in September in Bucharest, became a key market platform for strategic discussions, encouraging closer cooperation between Ukrainian and European operators, exploring new ways of doing grain business and responding to the ongoing market change.

Today, we continue to search for the right solutions in Ukrainian agricultural market, paying close attention to the prospects for the next crop, processing, recovery and investment trends, export strategies in the Black Sea and Danube regions, the impact of EU agricultural policy, as well as the outlook for global demand and competition.

I sincerely thank all Conference Delegates, Speakers and Partners for participation and professional exchange – together we stand for the recovery and development of agricultural Ukraine!

Best regards

GREETINGS OF GENERAL PARTNER

Julian Godfrey

CEO of Abbey
Commodities
DMCC

Dear Participants, Guests, and Partners of the conference! Abbey Commodities DMCC is pleased to welcome you to the 24th International Conference “BLACK SEA GRAIN. KYIV-2026”.

Every spring, this forum serves as a vital hub for those who not only work in agribusiness but also actively shape its future. It is a great honor for our company to serve as the General Partner and a participant of an event that, for many years, has stood as the main guide for Ukraine’s entire agricultural sector.

First and foremost, we would like to extend our gratitude to the consulting agency UkrAgroConsult for its unwavering role as the organizer. Your ability to unite the professional community for meaningful dialogue, even in such challenging times, is remarkable. Your systematic work and deep analytics remain a cornerstone of the entire market.

Today, the agricultural sector operates in a state of constant change. Geopolitics is reshaping trade routes, and global market competition is intensifying. Rising fuel and energy costs add further pressure, while climate risks are becoming increasingly tangible. All of this creates new rules of the game to which businesses must adapt rapidly.

At the same time, these challenges open the door to new opportunities. For four years now, Ukraine’s agribusiness has been operating under the conditions of a full-scale war, learning to navigate unprecedented challenges—from disrupted logistics to constant production risks. This has forged a new level of resilience, flexibility, and decisiveness. This is precisely why Ukrainian producers possess a unique advantage — the ability to operate effectively in an environment of high uncertainty.

Therefore, the key questions today are clear: how to strike a balance between risk and opportunity; where to secure resources for technological investment; how to build forward-looking strategies; and how to strengthen Ukraine’s competitive position in the global agricultural market.

We hope this conference becomes a space for substantive dialogue, practical insights, and decisions that lead to sustainable growth. We wish all participants a highly productive and successful conference.

GREETINGS OF PARTNER

Eugene Dorofeiev

Country Manager
AmSpec Ukraine

Welcome to BLACK SEA GRAIN.KYIV-2026 Conference — a premier gathering that AmSpec Ukraine is always proud to support as a dedicated partner.

As your trusted expert in Testing, Inspection, and Certification (TIC), we are committed to delivering the knowledge and precision that help build a safer, more sustainable world. At AmSpec, we offer a comprehensive range of services that ensure the quality, safety, and regulatory compliance of agricultural products, including:

- **Testing:** Laboratory analysis to determine the quality, composition, and presence of contaminants in agricultural goods such as crops, seeds, and livestock feed. This includes testing for moisture content, pesticide residues, mycotoxins, nutritional labeling, and genetically modified organisms (GMOs).
- **Inspection:** On-site evaluations at all stages of the agricultural supply chain—from farms to processing facilities. These inspections include crop condition assessments, maturity evaluations, and verification of production processes to ensure compliance with specified standards.
- **Certification:** Issuance of official certificates verifying that agricultural products meet the quality and safety benchmarks set by regulatory authorities and certifying organizations. This includes organic, fair trade, and sustainability certifications.

A Heartfelt Thank You

To our valued clients, partners, and colleagues—your continued support makes our shared vision of a safer, more sustainable world possible.

Ми розробляємо та виробляємо сучасні прилади для контролю якості у зерновій та олійно-жировій галузі.

FN-GRAIN — Прилад числа падіння

Призначений для вимірювання активності альфа-амілази в пшениці, житі та борошна за методом Хагберг-Пертена.

- Висока точність, забезпечена повною сучасною автоматизацією
- Мінімальний вплив людського фактору
- Барометрична компенсація
- Можливість працювати з 1 або 2 канали та ін.

Аналізатор фосфоліпідів AMDF-1В

Ефективний контроль фосфоліпідів у реальному часі. Точний технологічний інструмент для виробників рослинних олій без складної пробопідготовки та тривалих лабораторних процедур. Результат ~30 хв.

InfraGrain — Інфрачервоний аналізатор

Використовується для визначення показників якості зернових та олійних культур, продуктів їхньої переробки, комбікормів та інших продуктів.

- Показники: Білок, волога, жир, клітковина.
- Миттєві результатию
 - Індивідуальні калібрування.

PL Series — Сокслет (екстракція жиру)

Компактне рішення для ефективного та безпечного визначення вмісту жиру в лабораторних умовах за класичним методом Сокслета.

- Компактна та модульна конструкція (до 10 позицій)
- Безпечна робота
- Без додаткової перегонки – пряме повернення розчинника

Млин PrimeMILL X1

Це професійний жорновий млин, призначений для якісного та рівномірного подрібнення сипучих продуктів.

- Не нагріває пробу

PRIMEX-20T — Прес для віджиму олій

- Аналіз за ~30 секунд
- Повністю автоматичний
- Швидке очищення без зусиль
